CASE NO. CV12-8964-GW (JEMx)

Honorable George H. Wu

**DECLARATION OF JON
ESTANISLAO IN SUPPORT OF
PLAINTIFF ACTIVISION
PUBLISHING, INC.'S MOTION
FOR PARTIAL SUMMARY
JUDGMENT**

Date: July 1, 2013
Time: 8:30 a.m.
Ctrm.: 10

DECLARATION OF JON ESTANISLAO

I, Jon Estanislao, declare as follows:

1. I am the Senior Director, Global Digital and Mobile Sales for Activision Publishing, Inc. (“Activision”). I have been employed at Activision, in various roles, since 2002. In my current position, I am responsible for digital sales strategy and distribution, including managing Activision’s business strategy for emerging digital platforms. I also have been involved in a variety of other aspects of Activision’s business operations over the years, including managing relationships with distributors and content partners.

2. I make the following declaration based on my personal knowledge or on my review of business records maintained by Activision in the ordinary course of business. If called as a witness, I would and could completely testify to the matters set forth in this declaration.

3. Activision is a Delaware corporation, with its principal place of business at 3100 Ocean Park Boulevard, Santa Monica, CA 90405. Activision is a video game publisher, in the business of producing, developing, publishing, marketing, and distributing a catalog of video games. Activision is a subsidiary of Activision Blizzard Inc., whose holdings include the video game publisher Blizzard Entertainment, Inc., publisher of the online game “World of Warcraft.” Activision currently is the largest video game publisher in the world, with operations in the United States, Canada, the United Kingdom, France, Germany, Ireland, Italy, Sweden, Spain, the Netherlands, Australia, South Korea, and China.

1 4. In this declaration, I will provide a broad overview of Activision's
2 products, distribution methods, and the integration of Activision's games and the
3 Internet. First, I will briefly describe Activision's 30 year history. Second, I will
4 discuss the various ways in which Activision distributes its video games and
5 related products. Third, I will discuss the relationship between Activision games
6 and the Internet, including the way in which its games are played online. Finally, I
7 will briefly discuss some emerging media platforms that are part of Activision's
8 business plans and some of the ways in which Activision is working to adapt its
9 products to the changing technological environment.

10
11 A Brief History of Activision
12

13 5. Activision was founded in 1979 by three computer programmers
14 formerly employed by the video game company Atari, and met with almost
15 immediate success. At the time of its creation, video games were produced and
16 published exclusively by the makers of the video game consoles, such as Atari.
17 Activision was one of the first "third-party developers" of video games – that is, a
18 company that develops video games for other companies' game systems.

19
20 6. Throughout the three decades of Activision's existence, the Activision
21 brand name has been used continuously by Activision, on hundreds of products,
22 which have been purchased by millions of consumers. The Activision brand has a
23 recognition in the video game industry unmatched by any other third-party video
24 game developer.

25
26 **The 1980s**
27

28 7. Activision released its first set of games, for the Atari 2600 console, in

1 1980. In the early 1980s, Activision released more than two dozen games for the
2 Atari console and other early video game consoles, the most notable of which were
3 “River Raid,” “Kaboom!” “Pitfall!” and “Barnstorming.” “Pitfall!” was the second
4 best-selling game ever released for the Atari 2600 console (after Pac-Man). These
5 games were among the best-selling games for the Atari 2600 console, and sold
6 more than 4 million copies.

7
8 8. Activision’s early 1980s games were sold as physical cartridges to be
9 inserted into game systems, connected to a television. These games were marketed
10 and sold under the Activision name and brand, consisting both of the word
11 ACTIVISION and, in many instances, the ACTIVISION logo (depicted below).

17 In each of these games, the ACTIVISION name and/or logo appeared on the front
18 of the box at the top (sometimes with the phrase “ACTIVISION PRESENTS”), on
19 the back of the box, and on the cartridge itself. Additionally, the Activision logo
20 appeared in the “Start” screen in which the player was prompted to press a button
21 to start the game. Images on the front and back of the box often depicted the game
22 or artwork in a rounded box, reflecting the shape of a television set. True and
23 correct copies of Activision’s catalogs from 1981 through 1983, reflecting a
24 variety of Atari and other console releases, are attached hereto as **Exhibit 1**.

25
26 9. In addition to its console releases, in the early and mid-1980s,
27 Activision released a number of computer games and other software products for
28 early computers such as the Amiga, Commodore 64, Atari 800, and Apple II.

1 Some of the most well-known of these were the games “Die Hard,”
2 “Ghostbusters,” and “Little Computer People.” All of these games were sold in
3 boxes bearing the word mark ACTIVISION. True and correct copies of exemplar
4 images of packaging from these 1980s computer releases is attached hereto as
5 **Exhibit 2.**

6
7 10. By the end of the 1980s, Activision had released several hundred
8 games for virtually every computer and console system that existed at the time,
9 including the Apple Macintosh and DOS personal computers and console systems
10 by Atari, Nintendo, and Sega.

11 12 **The 1990s**

13
14 11. Activision’s commercial success continued into the 1990s, even after
15 the closing of Atari and the end of the first wave of game consoles. In the 1990s,
16 Activision released some of the most critically acclaimed and cutting-edge PC
17 game titles ever created. Among the most notable of these were the
18 “MechWarrior” games (“MechWarrior” and “MechWarrior 2”), “Heavy Gear,”
19 “Quake II” and “Quake III Arena.” Attached hereto as **Exhibit 3** are true and
20 correct copies of exemplar images of packaging from these 1990s releases.

21
22 12. Games released in this time period were among the first to utilize on-
23 line multiplayer features. That is, players could connect to each other using an
24 Internet connection or LAN (local area network) connection and engage in
25 cooperative or competitive play. The multiplayer elements of the Quake games
26 became so popular that they became the focus of professional and semi-
27 professional video game (or “e-sports”) matches around the world.
28

The 2000s

13. By the late 1990s, dedicated game consoles began to reemerge as the dominant video game platform with the launch of Sony's PlayStation console and the Nintendo GameCube and Nintendo 64. Activision was at the forefront of these emerging game platforms, while continuing to produce games for Windows PCs. During the 2000s, and continuing to the present, Activision produced games for every major video game console, including every iteration of Sony's PlayStation console, Microsoft's Xbox and Xbox 360, the Sega Saturn and Dreamcast, and the Nintendo Wii and handheld DS system. All of these consoles are played by connecting them to a television set or video monitor.

14. Activision's console releases span a variety of genres. Its releases include racing and sports games, such as a NASCAR series of games and "Tony Hawk" skateboarding games; "first person shooter" games such as the "Call of Duty" and "Wolfenstein" series; action and arcade games; role-playing games; music games such as "Guitar Hero" and "DJ Hero," and children's games. Attached hereto as **Exhibit 4** are images of a variety of Activision console games.

15. Activision's catalog of contemporary titles include game franchises that are among the best-selling and most innovative games of all time. Among Activision's premier franchises over the past several years are the "Guitar Hero," "Call of Duty," and "Skylanders" series of games.

(a) In 2005, the publisher RedOctane launched the original "Guitar Hero" and Activision subsequently acquired RedOctane in 2006. Guitar Hero was the first game of its kind, and revolutionized video gaming by replacing the traditional handheld controller with a guitar-shaped controller, thereby enabling the player to

1 emulate the fantasy of being a guitar player in a rock-and-roll band. “Guitar Hero”
2 was followed by a number of sequels and expansions, including “Guitar Hero III:
3 Legends of Rock” and “Band Hero” (which expanded the experience to include
4 drums, vocals and bass guitar). The “Guitar Hero” games received numerous
5 “Game of the Year” awards, sold millions of copies, and became one of the best-
6 selling video game franchises of all time. Activision has licensed “Guitar Hero”
7 for use in an arcade cabinet and for use in mobile games.

8
9 (b) In 2003, Activision released “Call of Duty,” a first-person shooter
10 game set in the battlefields of World War II. “Call of Duty” was followed by
11 numerous sequels and spin-offs, including “Call of Duty: Modern Warfare” (and
12 its two sequels) and “Call of Duty: Black Ops” (and its sequel). Each “Call of
13 Duty” games broke all preexisting sales records and the series has become the best-
14 selling video game franchise of all time. In fact, the most recent “Call of Duty”
15 game (Black Ops II), sold more than 11 million copies on its first week of release.
16 In 2012, the “Call of Duty” franchise achieved cumulative life-to-date revenues of
17 approximately \$8 billion. The “Call of Duty” games are currently the most played
18 games on the Xbox Live service. Activision has licensed the “Call of Duty” brand
19 for a variety of products, such as clothing, video game hardware and accessories,
20 and branded-Xbox consoles.

21
22 (c) In 2011, Activision released “Skylanders: Spyro’s Adventure.”
23 “Skylanders” again revolutionized video games by integrating into the game
24 experience a line of toy figurines. The figurines, when placed on a “portal”
25 attached to a game console, “come to life” within the video game. The progress
26 and advancements of each character are saved to the figurine, thereby allowing the
27 figurines to be carried from one console to another. Skylanders figurines are sold
28 at major retail outlets such as Target and Wal-Mart and are marketed to appeal to a

1 wide variety of consumers, including children, casual video game players, and toy
2 collectors. Skylanders and its sequel (“Skylanders Giants”) were among the best-
3 selling children’s games in 2011 and 2012.

4
5 True and correct copies of images of the packaging from certain “Guitar
6 Hero,” “Call of Duty” and “Skylanders” products are attached hereto as **Exhibits**
7 **5, 6, and 7.**

8
9 16. Activision has released many games based on motion picture or
10 television properties. These include games related to the movies “Toy Story,”
11 “Tarzan,” “Kung-Fu Panda,” “Shrek,” “James Bond” and television shows such as
12 “Star Trek,” “The Simpsons,” and “Wipeout.” Activision also has released several
13 comic-book and superhero tie-in games under license from Marvel, including a
14 series of “Spiderman” and “X-Men” games. True and correct copies of images of
15 the packaging of certain of these games are attached hereto as **Exhibit 8.**

16
17 17. Activision currently is the largest game company in the world, with a
18 catalog of several hundred video game and related products for nearly every video
19 game platform. Activision releases between 20 and 50 video game titles each year
20 and its worldwide sales of those games are in the billions of dollars.

21
22 18. As has been Activision’s practice since the 1980s, each and every
23 Activision title prominently displays the ACTIVISION name and logo, including
24 on the front of the game box, on the back of the box, on the game media (CD-rom,
25 DVD, or cartridge), and on launch or loading screens before the game starts.
26 Additionally, since the early 2000s, each and every Activision title sold through
27 digital download partners and retailers prominently displays the ACTIVISION
28

1 name and logo on the respective game pages, and on launch or loading screens
2 before the game starts.

3
4 **Activision's Distribution of Its Products**

5
6 19. Activision distributes its products in several ways and through several
7 different channels.

8
9 20. Physical Distribution. Activision distributes its games on physical
10 media, such as cartridges, CDs, DVDs, or Blu-ray Disc. These products are sold
11 via "brick-and-mortar" stores, including specialized video game stores such as
12 Gamestop, electronics stores such as Best Buy, toy stores such as Toys R Us, and
13 retail stores such as Target and Wal-Mart. They also are sold via on-line retailers
14 such as Amazon.com. A true and correct copy of an image of an Activision
15 product offered for sale on Amazon.com is attached hereto as **Exhibit 9**.

16
17 21. Digital Distribution. An increasingly growing segment of
18 Activision's distribution is through on-demand digital downloads over the Internet.
19 In 2012, nearly 30% of Activision's PC game sales were via digital download
20 services. Current popular titles such as the "Call of Duty" games are made
21 available on services such as Valve's Steam system or Amazon's Digital Games
22 service. Several "classic" or older Activision games (such as "Vampire: The
23 Masquerade" and "Spycraft") also are made available for digital download on
24 services such as gog.com. Console versions of Activision games also are available
25 for download on services such as Xbox Live and the PlayStation Network.
26 Activision has entered into license agreements with these entities for the
27 distribution of its products on these services. Activision expects that within the
28 next five years, digital downloads will be equal or be greater than physical

1 purchases of video games. True and correct copies of portions of Activision's
2 license agreements with the digital services Steam and Microsoft are attached
3 hereto as **Exhibit 10**. True and correct copies of screen captures reflecting the
4 availability of several Activision games for digital download on the Steam
5 network, Xbox Live, and gog.com are attached hereto as **Exhibit 11**.

6
7 22. Add-Ons and Downloadable Content. In addition to its core video
8 game products, Activision sells expansions, add-ons, and enhancements to its
9 games, such as "map packs," which provide the player with additional game levels.
10 These products are sold digitally over the Internet on services such as Xbox Live,
11 PlayStation Network, and Steam. A true and correct copy of a screen capture
12 reflecting the availability and purchase of downloadable content on Xbox Live is
13 attached hereto as **Exhibit 12**.

14
15 23. Web-based and Browser Games. Activision offers several web-based
16 games, which can be played from nearly any device using a standard Internet
17 browser without the need for the game to be downloaded. For example, Activision
18 offers several browser-based "Skylanders" games on its website
19 www.skylanders.com/onlinegames. A true and correct copy of a screen capture
20 reflecting the Skylanders browser-based games is attached hereto as **Exhibit 13**. I
21 have been advised that the Activision TV in-room system is able to receive and
22 play browser-based games, such as those available on the PBS Kids website. If
23 that is the case, then there is no reason why Activision browser-based games
24 (including Skylanders) would not also be playable on the system.

25
26 24. Mobile and Handheld. Activision sells a number of products for
27 mobile and handheld devices. For example, Activision has released and sells a
28 (reimagined) version of "Pitfall!" for the iPhone and iPad. Other mobile games

1 include iOS (Apple) and Android tie-ins to the “Call of Duty” and “Skylanders”
2 series of games. True and correct copies of screen captures reflecting the
3 availability of Activision games for iOS devices are attached hereto as **Exhibit 14**.
4 In addition to the foregoing, Activision offers a mobile version of its “Call of
5 Duty” social networking and “stat tracking” service, “Call of Duty: Elite”
6 (described below) for iOS and Android devices.

7
8 **Activision’s Online and Social Networking Services**
9

10 25. For nearly 20 years, Activision games have been playable online over
11 the Internet and via local area network (“LAN”) connections, and for more than 10
12 years have been playable through services such as the PlayStation Network, Xbox
13 Live, and Valve’s Steam system.

14
15 26. One of the first of Activision’s games containing online multiplayer
16 functionality was 1995’s “Mechwarrior 2.” That game allowed players to compete
17 with each other using a local-area network (“LAN”) connection or over an Internet
18 connection. By the late 1990s, online multiplayer functionality was an integral
19 part of many Activision games. (In fact, 1999s “Quake III Arena” was a
20 multiplayer-only game and did not contain any single-player “campaign.”)

21
22 27. Many of Activision’s current releases contain robust multiplayer
23 modes that allow players to compete with each other in a variety of game types,
24 such as “capture the flag” or “deathmatch.” The “Call of Duty” games, in
25 particular, are known for their high-quality, high-intensity multiplayer modes, and
26 “Call of Duty” players have spent millions of hours playing the game’s multiplayer
27 modes.

1 28. Two software components are necessary for multiplayer games: a
2 “client” and a “server.” The “client” software is the video game software itself that
3 is installed on a player’s computer or video game console. The “server” is a
4 remote location that transmits data between and among players and their individual
5 clients. In other words, when a player performs an action in a video game, that
6 action is registered with the server, which transmits the information to all of the
7 other players engaged in the game. For many years, Activision has provided
8 multiplayer servers dedicated to its games. In order to play Activision games,
9 users must “log on” to these servers using a player account (such as an Xbox Live
10 account). The Activision server then handles all of the various functions that
11 enable the Activision games to be played online.

12
13 29. In 2011, Activision launched a service known as “Call of Duty Elite.”
14 “Call of Duty Elite” is a premium “Call of Duty” online multiplayer service that
15 provides a number of social networking and other functions related to Call of Duty
16 multiplayer games. Call of Duty Elite services are provided via a web browser or a
17 free software App that can be installed to an Xbox 360, mobile phone, iPad, or
18 computer. Once installed, and an Elite account is created, the player can view his
19 or her game statistics (e.g. the number of hours played, the number of matches won
20 and lost, which badges or awards have been unlocked, etc.), create “clans” (i.e.
21 teams) and chat with clanmates, participate in competitions, watch videos with
22 gameplay tips and strategies, and find opponents or matches. True and correct
23 copies of screenshots from the primary web page for “Call of Duty: Elite” are
24 attached hereto as **Exhibit 15**.

Emerging Digital Platforms and Distribution Methods

30. As discussed above, digital distribution has become an increasingly important part of Activision's overall business model. Activision expects that with the next generation of video game consoles, such as Xbox One and PlayStation 4, the percentage of sales made via digital services will increase. We anticipate that distribution of games via Blu-ray disc or DVD will be a shrinking part of the overall market. Additionally, add-on and downloadable content is now a standard feature of many video games, including Activision's best-selling titles. Thus, we consider downloadable content to be an integral part of our games as a whole.

31. In addition to the standard and long-established distribution methods used by Activision and other game companies, such as physical distribution and digital downloads, Activision continues to analyze and evaluate a variety of new methods of distribution. One distribution model that has been regularly considered and evaluated by Activision is on-line streaming or cloud computing. In this model, the game itself would not need to be downloaded onto a local hard drive. Rather, the game is stored on the "cloud" or on a remote server and content is digitally streamed to a user's computer, console, or mobile device on demand. The advantage of this method of distribution is that it is not dependent upon the hardware being used to access the stream. Thus, games can be viewed and played on platforms such as tablet computers or ultrabooks that do not possess the type of processing power or hardware needed to drive high-end video games.

32. Activision also has been continuing to analyze and evaluate distribution of its products via downloadable "Apps." Activision currently distributes a number of iOS and Android Apps. Activision also has been exploring ways to bring its entertainment content to consumers through other home

1 entertainment devices, such as internet-enabled television sets or set-top cable or
2 satellite boxes. Activision currently is in talks with the maker of one internet-
3 enabled television set to provide its games or other content via the television,
4 without the need for a dedicated console or gaming device.

5
6 33. Additionally, as consumers engage in consumption of interactive
7 entertainment on a variety of devices, Activision has been contemplating a variety
8 of ways in which to integrate its products across platforms. For example, “Call of
9 Duty” players can track their statistics and engage in other game-related social
10 networking online. Activision plans to further expand the integration of video
11 games and mobile devices in its forthcoming games, such as by providing social
12 networking, mobile access to online events, or mobile versions of games that tie
13 into console versions of that game.

14
15 34. Another avenue that is continuing to be explored in the video game
16 industry, including by Activision, is the further integration of video game content
17 and other forms of content such as motion pictures and television shows. Recent
18 games such as “Defiance” (in which a game and television show take place in a
19 parallel universe, with events in the game potentially impacting the television
20 show) have illustrated the possibility of true convergence of these media. With
21 new consoles such as Xbox One touting the ability to seamlessly transition
22 between television and video games, Activision is continuing to explore the
23 possibilities of integrating video game content with television or motion picture
24 content. The possibilities range from participatory televised e-sports matches to
25 video games that are designed to be played on one screen while additional related
26 content is being displayed on another screen (such as an iPad).

1 35. Activision products currently and in the future transcend what
2 traditionally has been thought of as “video games.” Many of Activision’s products
3 integrate single-player gameplay, multiplayer gameplay, social networking, and
4 mobile phone apps. Many of our products are also playable anywhere, on a
5 multitude of devices and platforms, allowing our customers to participate in
6 entertainment experiences whether they are home or traveling. Moreover, as
7 content migrates to the “cloud,” travelers will be able to easily access their games
8 and home entertainment from any location equipped with an Internet connection.

9
10 I declare under penalty of perjury under the laws of the United States of
11 America that the foregoing is true and correct.

12
13 Executed on this 3 day of June, 2013, at Santa Monica, California.

SPORTS CHALLENGES

Designed by Bob Whitehead. At the sound of the bell, come out swinging. Go toe to toe with the Activision computer or a friend. It's fast and furious action that's sure to leave you exhausted. But, be careful! Don't get pinned to the ropes. Knock-outs are part of the action, too! Honorable Mention, 1981 Arcade Alley Awards: Best Head-to-Head, Best Sports, Most Innovative Game.

Designed by Alan Miller. Never wait for a court again. Tennis by Activision offers all the challenge and excitement of tennis right on your own TV. Charging players can rush the net, lay back and play the baseline, or roam the court. It's tennis action so remarkably real, the ball's even got a shadow. Loads of fun for all game fans.

Designed by David Crane. A relaxing afternoon at the ol' fishing hole? Not quite. The boy's full of beautiful sunfish alright, and all you have to do is land 'em faster than your opponent. But there's just one small hitch. Watch out for that shark! His voracious appetite makes Fishing Derby™ by Activision a constant challenge. 1981 Arcade Alley Award Winner, Best Audio and Visual Effects.

Designed by Bob Whitehead. Challenge yourself to a wide variety of high-speed downhill or slalom runs. Trees and moguls rush by as you race through the courses. Designed for everyone from novice to pro. Why, even if you hate snow, you'll love the fun of Skiing by Activision. 1981 Arcade Alley Award Winner, Best Solitaire Game.

OPP 001559

ACTION GAMES

Designed by David Crane. Presenting a space shoot-out the likes of which you've never seen or heard before. As Commander of a fleet of intergalactic spacecraft, you come upon some very unfriendly alien types. Get them before they get you and you're awarded points. Brilliant colors and startling sound effects put Laser Blast™ light years ahead of any other space video game.

Designed by Larry Kaplan. It looks very simple. You have three buckets of water. The cute little guy up on the wall has a whole bunch of bombs. He tosses the bombs, and you catch them. Like we said, "Very simple." P.S. Before you know it, bombs are falling at a rate of 13 per second! Is the hand really quicker than the eye? Try Kaboom!™ by Activision and find out.

Designed by David Crane. You see, there's this chicken. And he decides he wants to cross the road. Familiar story, right? Except, this time the road is a freeway, and it's rush hour! Your task is to guide the poor chicken to the other side of the freeway. Get the picture? And, if you get the game, you'll agree there's never been anything like Freeway™ by Activision.

Designed by David Crane. Watch the countdown, shift gears, pop the clutch and burn rubber! You can rev your engine, but be careful not to blow it. True-to-life sound effects and grueling competition bring all the action of the dragstrip right into your living room!

OPP 001560

STRATEGY GAMES

FOR USE WITH THE
ATARI VIDEO GAME SYSTEM

Designed by Larry Kaplan. Presenting the ultimate solitaire bridge game! Bridge by Activision deals hundreds of millions of hands at random and provides a computer partner who bids by the rules. After you've established a contract, the computer plays as your opponents. It's a great way to sharpen your skills. Never be without a bridge game again. It's heaven!

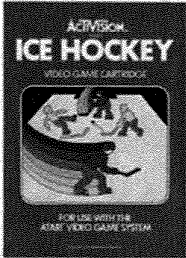

FOR USE WITH THE
ATARI VIDEO GAME SYSTEM

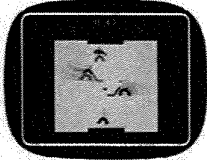

Designed by Alan Miller. Remember good ol' checkers? Well, Checkers Activision-style is a whole new challenge. There are three different skill levels to choose from. Warm up with novice, and then, when you're feeling brave, tackle the tougher levels. Your computer opponent plots the results of each of his available moves—and then picks the one that's toughest on you. You'll find the Activision computer a more-than-worthy opponent.

OPP 001561

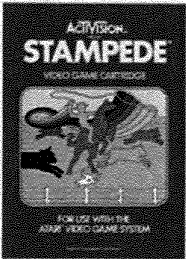

COMING SOON

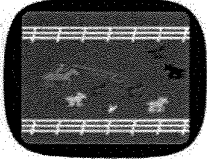

FOR USE WITH THE
ATARI VIDEO GAME SYSTEM

Designed by Alon Miller. Face off! Fight for the puck. Skate down ice past the defender for a slap-shot. Then, hurry back on defense as your opponent's goalie makes a remarkable save and a long pass to his forward. Here's fantastic head-to-head competition right at your fingertips. So real, it'll knock you off your skates!

FOR USE WITH THE
ATARI VIDEO GAME SYSTEM

Designed by Bob Whitehead. Ready for a little round up? With Stampede™ by Activision, you'll have to ride fast and rope even faster. Those little dogies seem to be everywhere, and they're all worth points. But, be careful! Your ol' horse can get a little edgy, especially when you take your eyes off the trail. So, head out West for hours of fun with Stampede!

Stampede and Ice Hockey available December, 1981.

SPORTS CHALLENGES

Designed by Bob Whitehead. At the sound of the bell, come out swinging. Go live to toe with the Activision computer or a friend. It's fast and furious action that's sure to leave you exhausted. But, be careful! You'll get punched to the ropes. Knock-outs are part of the action. *Honorable Mention, 1981 Arcade Alley Award's Best Headline-Head, Best Sports, Most Innovative Game.*

Designed by David Crane. A relaxing afternoon on the of fishing hole? Not quite. The boys full of beautiful sunset night, and off you have to do it fast! You faster than your opponent. But there's just one small hitch. Watch out for that shark! His voracious appetite makes Fishing Derby™ by Activision a comical challenge. *1981 Arcade Alley Award Winner, Best Audio and Visual Effects.*

Designed by Alan Miller. Never wait for a court again. Tennis by Activision offers all the challenge of tennis right at your own. Changing players can rush the net, play the baseline, or serve the court. Loads of fun for all game fans. *1982 Arcade Alley Award Winner, Best Competitive Game, Honorable Mention, Best Sports Game 1982.*

Designed by Bob Whitehead. Challenge yourself to a wide variety of high speed downhill or slalom runs. Trees and moguls rush by as you race through the courses. Designed for everyone from novice to pro. Why even if you hate snow, you'll love the fun of Skiing by Activision. *1981 Arcade Alley Award Winner, Best Solitaire Game.*

Designed by David Crane. Watch the countdown, shift gears, pop the clutch and burn rubber! You can rev your engine, but be careful not to blow it. True-to-life sound effects and grueling competition bring all the action of the dragstrip right into your living room!

Designed by Alan Miller. Face off! Fight for the puck. Shove down ice and the defender for a stop-shot. Then, flumy back on defense as your opponent's goalie makes a remarkable save! and a long pass to his forward. Here's fantastic head-to-head competition right at your fingertips. So real, it'll knock you off your skates!

ACTION GAMES

Designed by Larry Kaplan. It looks simple. You have three buckets of water. The guy on the wall has a bunch of bombs. He tosses the bombs, and you catch them. Before you know it, bombs are falling at a rate of 13 per second! Is the hand quicker than the eye? Try Kaboom!™ by Activision and find out. 1982 Arcade Alley Award Winner, Best Audio and Visual Effects.

Designed by David Crane. It's about this chicken who wants to cross the road. Familiar story? Except, this time the road is a freeway, and it's rush hour! Your task is to guide the poor chicken to the other side. Get the picture? And, if you get the game, you'll agree there's never been anything like Freeway™ by Activision. Honorable Mention, 1982 Arcade Alley Awards: Most Innovative Game.

Designed by David Crane. Presenting a space shoot-out the likes of which you've never seen or heard before. As Commander of a fleet of intergalactic spacecraft, you come upon some very unfriendly alien types. Get them before they get you and you're awarded points. Brilliant colors and startling sound effects put Laser Blast™ light years ahead of any other space video game. Honorable Mention, 1982 Arcade Alley Awards: Best Science Fiction Game.

Designed by Rob Whitehead. Ready for a little round-up? With Stampede™ by Activision, you'll have to ride fast and rope even faster. Those little dogies seem to be everywhere, and they're all worth points. But, be careful! Your ol' horse can get a little edgy, especially when you take your eyes off the trail. Head out West for hours of fun with Stampede!

OPP 001586

STRATEGY GAMES

Designed by Larry Kaplan. Presenting the ultimate solitaire bridge game! Bridge by Activision deals hundreds of millions of hands at random and provides a computer partner who bids by the rules. After you've established a contract, the computer plays as your opponents. It's a great way to sharpen your skills. Never be without a bridge game again. It's heaven!

Designed by Alan Miller. Remember good ol' checkers? Well, Checkers Activision-style is a whole new challenge. There are three different skill levels to choose from. Warm up with novice, and then, when you're feeling brave, tackle the tougher levels. Your computer opponent plots the results of each of his available moves—and then picks the one that's toughest on you. You'll find the Activision computer a more-than-worthy opponent.

COMING THIS SPRING

Designed by David Crane. You've always had a secret fantasy about driving in the big race? Well, here's your very own Grand Prix™. You'll steer a course around other drivers, ease by oil slicks, zoom across bridges, with time your foremost enemy. Plus all the sound and fury of the real thing. Gentlemen (and ladies), start your engines!

Designed by Steve Cartwright. Fasten your seatbelts! This flight is full of daredevil action. It's Barnstorming™ by Activision. A brilliant achievement in realistic video game graphics by Activision's newest designer, Steve Cartwright. Fly a biplane through barns, over windmills, and through flocks of geese. Here's where state-of-the-art game design meets seat-of-the-pants aviation.

Barnstorming and Grand Prix are available March 1982.

THE WORLD'S LEADING DESIGNERS OF VIDEO GAMES.

Alan Miller. The creator of Tennis and Checkers by Activision has done it again. Alan's newest game, Ice Hockey, is sure to become a classic.

Larry Kaplan. Larry's Kaboom!™ has become an all-time favorite, and was one of the biggest hits of 1981. Also the designer of Bridge by Activision.

David Crane. His first two games, Dragster™ and Fishing Derby™ were smash hits. Then David outdid himself with Laser Blast™ and Freeway™. Now he's back on the road with Grand Prix™. Watch for it!

Bob Whitehead. After award-winners Boxing and Skiing by Activision, Bob came back with Stampede™. And the winners just keep on coming.

Steve Cartwright, the newest member of the Activision design team. Steve's Bornstorming™ is truly a breakthrough in graphics and design. He's Rookie-of-the-Year!

COMING THIS FALL

**Available,
September 1982**

Designed by Steve Cartwright. This game is a space nightmare! Imagine, if you can, fighting off multiple waves of the strangest objects ever to defy the laws of gravity. And there's no rest. Celestial dice, spinning bow-ties, furious flying widgets and even hostile hamburgers. If it's not one "thing," it's another. And they can drop round after round of deadly disintegrators. You'd better hope you and your courage are wide awake when you play Megamania™ by Activision.®

**Available,
September 1982**

Designed by David Crane. Seek out the lost treasures of an Ancient Civilization hidden deep within the forbidding jungle. Swing through trees, jump over bottomless pits and journey through underground passageways, avoiding the perils of the jungle—crocodiles and cobras, scorpions and quicksand. All to find the gold—in Pitfall!™ by Activision.®

ACTION GAMES

Designed by Alan Miller. You're in the cockpit of a mighty intergalactic spacecraft. Your mission: Defend your starbases against attacking enemy starfighters. Galactic charts pinpoint enemy targets. Meteor showers slow your attack. And enemy particle cannons can quickly send you limping home to your orbiting starbase for repairs. Computer readouts reveal energy levels, ship damage and more. Without a doubt, Starmaster™ by Activision® is one of the most thrilling video game experiences of the year!

Designed by Bob Whitehead. You're flying escort for a truck convoy of medical supplies. Suddenly, enemy aircraft show up on your long-range scanner. Quickly, you whip your chopper around 180°, blanketing the sky with laser rockets. The enemy maneuvers brilliantly and responds with multi-warhead missiles. Chopper Command™ by Activision® could easily be the most demanding video battle ever conceived!

ACTION GAMES

**1982 Arcade Alley
Award Winner, Best
Audio and Visual
Effects.**

Designed by Larry Kaplan. It looks very simple. You have three buckets of water. The cute little guy up on the wall has a whole bunch of bombs. He tosses the bombs, and you catch them. Available Summer 1981.

SUPER GAME CARTRIDGES FOR YOUR ATARI® VIDEO COMPUTER SYSTEM.™

READY FOR A CHALLENGE? This is it. Presenting the complete catalog of exciting video game cartridges from Activision.™

Love the thrill of realistic sports competition? Then, better warm up. Got your sights set on a little intergalactic space squabble? O.K., prepare for blast off. Or, maybe you just live for a good game of bridge or checkers? If so, grab a chair. Because your every wish is just an Activision game cartridge away.

HOW IT'S DONE. The Activision game designers are probably the world's leading innovators in the field. Each designer brings to his creations a unique, personal touch. The result? Well, you might say each Activision game has a real personality all its own.

THE PROOF'S IN THE PLAYING. It's just impossible to describe exactly how realistic Activision video games really are. So, you'll just have to see for yourself. With such incredible games, we're sure you'll quickly see why we say Activision beats the real thing!

This is the Video Computer System™ by Atari®. Activision game cartridges are designed for use with this system and are also compatible with the Sears Tele Game™ Video Arcade®.

Tele-Game™ and Video Arcade® are trademarks of Sears Roebuck & Co.

OPP 001555

THE WORLD'S LEADING DESIGNERS OF VIDEO GAMES.

ALAN MILLER. A true competitor. Maybe Alan's so good at creating challenging games because he loves to play them so much. He's the designer and undisputed champion of Checkers and Tennis by Activision™—and there's nothing like a man happy in his work.

DAVID CRANE. You could say David has a vivid imagination. His first two games, Dragster™ and Fishing Derby™ were instant hits. Then David went up into space to create Laser Blast™ and came back to street level for Freeway™. David loves to tackle assignments that seem impossible.

LARRY KAPLAN. Larry is a game design perfectionist. You'd have to be to design Bridge by Activision™ which has millions of variations. After completing Bridge, Larry then created the new and hilarious video game, Kaboom!™ So he's gone from bridge to bombs. Nobody ever accused Larry of having a one track mind.

BOB WHITEHEAD. Bob's games are particularly popular with those folks who enjoy realistic sports action. Take Boxing and Skiing. Both games truly capture the thrills and occasional spills of the real thing. Keep your eyes peeled for his newest creation to be unveiled in the Fall of 1981.

VIDEO GAME CARTRIDGE CATALOG.

WINTER/SPRING 1983

**FOR USE WITH
THE ATARI[®] 2600
VIDEO COMPUTER SYSTEM[™]
AND INTELLIVISION[®] SYSTEMS.**

WE PUT YOU IN THE GAME.

OPP 001759

THE ACTIVISION® ADVENTURE

The moment you insert an Activision® video game into your Atari® 2600™ Video Computer System™ or your Sears Tele-Games® Video Arcade,™ you will embark on adventure that will leave other home video games far behind.

You will experience a world that totally encompasses your mind and senses. A world of incredibly involving Sports games, Strategy games and Action games.

Atari®, 2600™ and Video Computer System™ are trademarks of Atari, Inc.
Tele-Games® and Video Arcade™ are trademarks of Sears, Roebuck and Co.

NEW FOR USE WITH THE ATARI® 2600 SYSTEM™

Now available

Designed by Carol Shaw. Your mission is to destroy enemy bridges, ships, aircraft and fuel depots along a heavily fortified inland waterway. And it won't be pretty, because you'll be coming in low, through a narrowing valley, and the enemy will be throwing everything it has at you. You'll really have to earn your wings with River Raid™.

Now available

Designed by Larry Miller. Monstrous spiders are determined to turn your peaceful orchard into a war zone. They spring into action, laying eggs that quickly turn into fearsome fighters. Your remote control bug blaster zaps them into bug heaven, if they don't get you first. Vibrant graphics, spooky sounds, and enough challenge to "bug" the most dedicated video game player.

NEW FOR USE WITH THE ATARI® 2600 SYSTEM™

**Coming in
February 1983**

Designed by Steve Cartwright. Get your sea legs, because this new submarine adventure game has just been launched. Your divers have finally located the greatest sunken treasure on the ocean floor, but getting back to the mother ship could get a little tricky. Your men have been spotted by a fleet of pirate scavengers and if they don't get 'em, the killer sharks might.

**Coming in
March 1983**

Designed by Mike Lorenzen, with three oinks and a growl. Three portly porkers are worried about their houses. No, they're not going condo, but the wolf is at the door and he's blowing like crazy. First, there's a house of straw, then one of wood, and then one of brick. They're all victims of the wolf's incredibly bad breath. Unless, of course, the home-owning oinkers can repair the damage faster than the wolf can cause it. Home remodeling has at last, become a ball.

NEW FOR USE WITH THE ATARI® 2600 SYSTEM™

**Coming in
April 1983**

Designed by Matthew Hubbard, Dolphin™ is ready to ride the wave. Make way for the first game to use sound effects to let you know of off-screen hazards and escape routes that are looming ahead. You're being chased by a hungry sea monster. As the sun moves across the horizon, you must make your way through schools of sea horses and try to catch the power of the magic seagull. Being chased by a sea monster has never been this exciting before.

**Coming in
April 1983**

Designed by Garry Kitchen to floor you. Start with one greedy burglar. Next, put him in "Burglar-Heaven," in this case, a large, metropolitan department store. He starts swiping things, of course. But wait, you're the blue clad, perplexed policeman with a bowler hat assigned to stop him. From floor to floor, up and down escalators and elevators, the stumbling, bumbling, fumbling, chase is on. For people who love video games, this is exactly the right department.

4

ACTION GAMES

Designed by Bob Whitehead. A devilishly dangerous air race! In your effort to break the speed record, you'll bank around pylons, dodge tree tops and zoom through passing clouds. Look out! Hot air balloons dead ahead! Sky Jinks™ has all the chills and spills of an old time air race. Just remember: There's no speed limit in the sky!

**1983 Arcade Awards:
Most Humorous
Home/Arcade Game.**

Designed by Steve Cartwright. This game is a space nightmare! Imagine, fighting off multiple waves of the strangest objects ever to defy the laws of gravity. Celestial dice, spinning bowties, furious flying widgets and even hostile hamburgers. And they drop round after round of deadly disintegrators. You'd better hope you and your courage are wide awake when you play MegaMania™

ACTION GAMES

Game.**

Designed by Alan Miller. Face off! Fight for the puck. Skate down ice past the defender for a slap-shot! Then, hurry back on defense as your opponent's goalie makes a remarkable save and a long pass to his forward. Here's fantastic head-to-head competition right at your fingertips. So real, it'll knock you off your skates!

Designed by David Crane. Watch the countdown, shift gears, pop the clutch and burn rubber! You can rev your engine, but be careful not to blow it. True-to-life sound effects and gruelling competition bring all the action of the dragstrip right into your living room!

SPORTS CHALLENGES

Designed by David Crane. You've always had a secret fantasy about driving in the big race? Well, here's your very own Grand Prix.™ You'll steer a course around other drivers, ease by oil slicks, zoom across bridges, with time your foremost enemy. Plus all the sound and fury of the real thing. Gentlemen (and ladies), start your engines.

STRATEGY GAMES

Designed by Larry Kaplan. Presenting the ultimate solitaire bridge game! Bridge deals hundreds of millions of hands at random and provides a computer partner who bids by the rules. After you've established a contract, the computer plays as your opponents. It's a great way to sharpen your skills. Never be without a bridge game again. It's heaven!

Designed by Alan Miller. Checkers Activision-style is a whole new challenge. There are three different skill levels to choose from. Warm up with novice, and then tackle the tougher levels. Your computer opponent plots the results of each of his available moves and then picks the one that's toughest on you. You'll find the computer a more-than-worthy opponent.

OUR FIRST TWO FOR INTELLIVISION®

The extraordinary playability, originality, sound effects and graphics of Activision® video game cartridges are here for Intellivision®. Pitfall!™, our smash hit jungle adventure game, and Stampede®, our classic western roundup, start the series. And there are plenty more on the way! All great fun. All exciting. All by Activision.

Also for use with the Sears Tele-Games® Super Video Arcade™

Tele-Games® and Super Video Arcade™ are trademarks of Sears, Roebuck & Co.
Intellivision® is a trademark of Mattel, Inc.

NEW FOR USE WITH INTELLIVISION®

Designed by David Crane. Danger lurks at every turn as Pitfall!™ brings a jungle no-man's land to life for Intellivision® owners. Jump into the shoes of Pitfall Harry as he leads you on an incredible adventure in search of lost treasures. You'll race against time, through a maze of jungle scenes, fighting off one deadly peril after another.

Designed by Bob Whitehead. Yahoo! Stampede® is bringing some kind of fun to Intellivision® owners. And some kind of challenge. The object of this tricky little game is to lasso as many stampeding calves as possible. Practice by yourself, or challenge a friend. But, hang on to your hat, keep your eyes on the trail, and round 'em up!

JOIN THE ACTIVISION TEAMS

Many Activision games recognize high-scoring players with special insignia. Consult the various game instruction booklets for details on how to become a member of one of these elite organizations.

Activision Challenges Your Every Move

You're about to lift off from Cape Canaveral and land at Edwards Air Force Base, begin the most rigorous event in sports history, ride cryo-cooled beams of light into a new dimension, battle relentlessly down the River Of No Return, defend the planet Tera from the most massive spaceforness ever to rule the universe, wage off-the-wall warfare with creepy crawlers, corn gobblers and the masked Mad Bomber! Not to mention encountering military tanks that have run amok and are overtaking the populace, trusting off Mr. Tooth Decay and enduring the road race of the century.

And that's just the beginning. Our designers are creating game experiences to further develop your imagination, endurance, courage, dexterity, and sense of humor. Because of Activision, we want to challenge your every move.

Our Vision For Intellivision®

The extraordinary playability, originality, sound effects and graphics of Activision are here for Intellivision®! There's Pitfall®, our smash jungle adventure game, Stampede®, a classic western roundup, Happy Trails®, a "locate the loot" game puzzle, and a massive spacefortress designed to rock the universe in The Dreadnaught Factor®.

Now, we're introducing three fantastic new titles for the Intellivision system. Battle by water with River Raid®, blast through space with Beamrider®, and save the crops with Worm Whopper®.

All great fun, all exciting. All by Activision.

Designed by
Tom Loughry
Available Now!

It's the most terrifying space siege ever to rock the universe! The dreadnaught's approach is overwhelming to the eye — 10,000 times the weight of your tiny hyperfighter, 100 times its size. Your mission is to stop it before it enters your starport and destroys the planet Terra. And, if you succeed, 100 other dreadnaughts loom on the horizon. Strategy now. Courage forever with the Dreadnaught Factor®.

Designed by
Tom Loughry
Available Now!

Welcome to Felton Peasantry's farm where corn grows high at harvesting time. But, wait! More offer waves of hostile crop-eaters are sithering, sliding-slithering toward your past crops. The corn must be saved! The worms must be whopped! Run to the shed, grab your 8-U-G pesticide and spray. Spray. Spray. Worm Whopper®. Watch what crops you!

Designed by
Carol Shaw
Available Now!

Dog hob it! That money offer Black Bart's robbed the stagecoach from Culver City and all heck's broke loose. Just when you're still on deadends into the side of the canyon. You've got to figger out another route by moving the pebble paths to create a new trail faster than you can say Happy Trails® pointer.

Designed by
Dave Rolfe
Available Now!

An impenetrable shield of light, 99 sectors deep, is encompassing the planet. You, alone, must cruise from beam to beam, casting torrents of laser bolts into white asteroids, red sig bombs, yellow droppers and more! The quest to penetrate the shield and restore space exploration to the planet. You have the skill. You have the derring! You are Beamrider®.

Designed by
Carol Shaw,
adapted by
Peter Kominick
Catching Score!

The enemy has positioned a series of bridges across the river to ensure a supply line. Your orders are to destroy those bridges, and jets that patrol along the waterway. As you advance, the canyon narrows and the enemy gets smarter. Stay alert, the enemy never sleeps. And only mistakes you make could be your very last move. Can you make it?

OPP 001800

Explode Into Action on Your Atari® 5200™ and Atari® Home Computer

Now Kaboom!®, MegaMania™ and River Raid™ are ready to explode onto your Atari® 5200™ and Atari® home computer screen! Prepare for fast-action fun and be the Mad Bomber or the quick-catching bucketeer—and it's bombs away! Defend your spacecraft from flying burgers, steam irons, bow ties, ladybugs and more. Follow the command and show your expertise as a fighter pilot. Then descend down the river with all of the strategy and courage that's in you! Bright new graphics. Outstanding gameplay. Explode into action with Activision® today!

Designed by
David Crane

Pitfall Harry™ does it again! Adventure into the jungle with Activision's million seller, Pitfall! Swing through trees, forage through underground passageways—avoiding crocodiles, scorpions, and cobras—watch out for the pit! Now the video game adventure classic explores new territories.

Designed by
Larry Kaplan,
adapted by
Paul Willson

Here's the Mad Bomber now, dropping little black bombs off that nearby rooftop. You've got to grab a bucket of water and catch those sparklers before bedlam breaks loose! It's wild. It's irresistible! And now, in the two-player version, you can fling the fireworks or be the fast-catching bucketeer and compete head-to-head. Catch the action!

Designed by
Carol Shaw

Activision's high-flying battle adventure is ready for action! Pilot your jet over the River Of No Return while blowing up enemy bridges and escaping jets, choppers, tanks and ships that wait at each endless turn of the river. Remember: the farther you fight your way in, the narrower the channel becomes, and the chances to refuel get slimmer and slimmer.

Designed by
Steve Cartwright

MegaMania™ Activision's obsessive space nightmare, is making new waves. You're asleep at the controls of your spacecraft when legions of hostile hamburgers, bow ties, steam irons, space dice, ice cream sandwiches, diamond rings, radial tires, and ladybugs creep into your conscience. Blast them away or you'll fry!
